

My heart feels pain when I take a deep breath after COVID-19. What is the reason?

Have you noticed any other symptoms such as cough, or headache?

Sorry, I did not noticed that.

Could you please tell me your SpO2, respiratory rate, and sleep quality?

I can only feel my heart beat runs fast.

⋮

OK. I think probability of acute bronchitis: High, probability of pharyngitis: Low, and probability of gastritis: Low.
